ABOUT US

We are a family group of companies of Portuguese origin.

Emperil is a trading company dedicated to the marketing of a wide range of dyed textile yarns and raw white continuous and spun yarns for the Textile Industry.

Borgapélío is an industrial company that offers a wide range of finishing of textile products, especially high quality services in dyeing, winding and twisting of continuous and spun yarns. We have the capability to adapt our products and services to the specificities of each market.

It is our commitment to keep product and service quality, fastness in manufacturing and delivery at customer, as well as flexibility, to keep on growing with sustainability.

We occupy a covered area of 22.000 sqm, divided in two places, having 80 employees and a production capacity of approximately 150 tons per month.

Emperil and Borgapélío conscious of their increased responsibility in the protection of the environment, promote the recycling as a way of giving a new life to the wastes, and so present in their range of products the recycled yarns. Borgapélío uses its resources in a conscious way to reduce the environmental impact. All the products created and developed are eco-friendly.

DEPARTMENTS
